

PW LUBES

Made in Bahrain

about us

PW Lubes is a premier manufacturer and marketer of high-performance lubricating oils and greases, catering to the automotive, industrial, and marine sectors. Our commitment to quality and innovation ensures that we meet the diverse needs of modern machinery and equipment while enhancing operational efficiency and longevity.

Our advanced manufacturing facility in Bahrain produces over ten million liters of premium-grade lubricants annually, meeting the highest international standards for reliability and performance. Strategically located for easy access to global markets, PW Lubes emphasizes research and development to deliver innovative lubricant solutions for a rapidly evolving industry. Trust us to power your engines, protect your machinery, and drive your success with quality products and exceptional service.

With our **Enhanced Products**

our **MISSION**

To deliver exceptional value to our customers by providing high-quality products at competitive prices, meeting market demands and surpassing client expectations, all while adhering to the highest international standards.

our **VISION**

To be recognized as a global leader in the lubricant manufacturing industry and a trusted lifelong partner to our customers, offering exceptional products and services while upholding the highest standards of Health, Safety, Security, and Environmental (HSSE) excellence in the oil sector.

our facility

At PW Lubes, we utilize the latest technology in lubricant oil blending and fully automated filling lines, ensuring the highest standards of quality and efficiency in every aspect of production.

Our automated processes start with receiving raw materials, managed by a control engineer who assigns unloading destination tanks based on material type and specifications.

The unloading process uses high-precision flow meters to control the transfer of raw materials to designated tanks, minimizing material loss.

Our lubricant oil blending technology uses high-accuracy systems to charge raw materials into blending kettles in precise ratios, ensuring efficiency and consistency. The kettles feature advanced mixing and heating systems for quick homogenization and optimal performance.

Our precise blending technology ensures high-quality lubricants with consistent batches, while our flexible system produces a variety of lubricants with minimal product loss to meet diverse customer needs.

We operate fully automated, high-tech filling lines that accurately fill various packaging types to customer specifications with no variations in the process.

Our Quality Control (QC) department features a state-of-the-art laboratory with high-precision instruments for testing lubricants and raw materials, adhering to international standards.

We are fully qualified to test all types of lubricants and provide comprehensive evaluation and advisory services to our customers, ensuring they receive the best solutions for their specific needs.

our products

- 1** **AUTOMOTIVE**
"Enhance Engine Life with Every Drop of PW Lubes"
- 2** **INDUSTRIAL**
"Durability and Performance Engineered for Your Machines"
- 3** **MARINE**
"Protecting Marine Engines, Ensuring Smooth Voyages"

our code of conduct

At PW Lubes, our Code of Conduct reflects our commitment to responsible, ethical business practices, building strong, lasting relationships with our customers, employees, and communities.

JOIN OUR SUPPLIER NETWORK

- Seeking reliable and high-quality suppliers to collaborate with.
- We believe in fostering strong, long-term partnerships built on trust, transparency, and mutual success.
- Joining our network of trusted suppliers, you will become an integral part of our commitment to excellence.
- Partner with us today and contribute to the continued success of our business.

JOIN OUR CLIENTELE

Are you in search of premium-quality oils and lubricants to meet your business requirements?

Look no further than PW Lubes!

- Our dedicated team of professionals is committed to delivering outstanding service and tailored solutions to our esteemed customers.
- We prioritize your needs and ensure the highest standards of quality and reliability in every product we offer.
- Partner with us today for all your oil and lubricant needs and experience exceptional service and support.

manufacturer

Established in 2010, VKB Petroleum Co WLL is a prominent leader in the lubricant and solvent industry, dedicated to delivering superior-quality lubricants designed to meet the diverse needs of industrial and automotive sectors. Our state-of-the-art manufacturing facility incorporates advanced formulation techniques, rigorous quality control processes, and cutting-edge technology, all overseen by experienced laboratory professionals. The PW Lubes brand embodies exceptional performance, durability, and protection, adhering to the highest international standards. By consistently prioritizing quality, innovation, and customer satisfaction, VKB Petroleum sets the benchmark for excellence, positioning itself as a trusted name in the lubricant industry.
